## WELDING HEAD CROSS SLIDES

6" x 6" Powered  
Cross Slide

Powered or manually operated to allow for 6 inches of vertical and horizontal adjustment. Adjustment is accomplished by manual hand wheel or 1/8 HP gear head motors. Roller Cluster grips slide ways on three sides to maintain alignment.

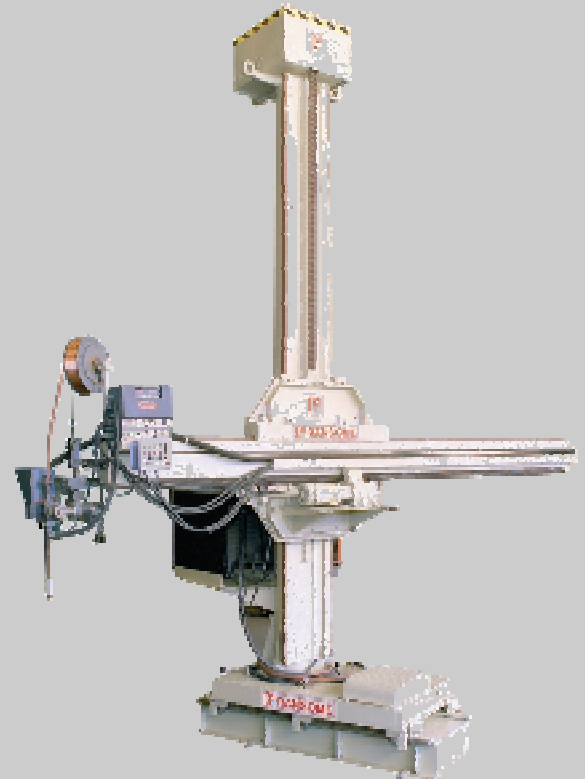

Powered slide provides movement at 4 IPM in both planes. Controls for operating include a joystick and can be mounted near welding controls or near the main operators station. Powered unit is wired for 115/1/60 operation.

Other length slides are available upon request.

**Powered or Manual Slides Available**
