

SILVERCUT 250

Gas Hand Cutting Torch

Heavy Duty Hand Cutting Gas Torch

Lightweight and compact, the Koike Silvercut 250 can cut up to 250 mm (10 inches) of plate. This well balanced hand torch utilizes a triangular tube configuration for greater strength. The solid construction of Silvercut 250 makes it the choice of professionals for use in metal fabricating, salvage yards, shipyards, auto maintenance and other related industries.

Features & Benefits

- **Well Balanced**
The torch weighs only 1kg (2.2lb) and yet has cutting capacity of up to 250mm (10in), making it ideal for use just about anywhere metal needs to be cut
- **Chrome Plated**
Provides corrosion resistance, reflects heat away from torch and reduces spatter adhesion
- **Tip Mixing System**
The Three Land Tip Mixing system assures greater safety and reduces the risk of flashback and backfire
- **Heavy Ribbed Handle**
Provides good ventilation and a sure handed grip on the torch
- **Easy Grip Gas Valves**
Allows gloved hands to quickly and accurately set pre-heat flame
- **Internal Tip Nut**
Protects threads in torch head
- **Ease-on cutting valve**
Reduces slag blow back when piercing
- **Cutting Tips**
Koike 100 series cutting tips

Lifetime Warranty

When using genuine Koike cutting tips, receive a lifetime warranty against damaging flashback. Our cutting tips offer a unique flashback resistance feature. We're so confident in our torches and cutting tips, that if our torch sustains a damaging flashback while using a genuine Koike cutting tip, we will replace or repair the torch free of charge.

(Damaged tip and torch must be returned to Koike)

Make sure to use our Safety-Z couplers for added safety and convenience.

Warning:

Flashback arrestors are recommended for safe operation. (Refer to accessories under specifications)

Custom Regulators – Koike's 101 single-stage oxygen regulator and 202 single-stage acetylene and LPG regulators meet the industry needs for compactness and economy. Assure your cutting, welding and heating operations to be safe and effective with Koike custom regulators.
