

AUTO PICLE - S

Remote Control Pipe Cutting Machine

Portable Cutting Accuracy for Large Pipes

The Auto Picle - S is a motorized oxy-fuel pipe cutting machine with remote control.

The special fixed rail for the torch guidance system provides high cutting accuracy and makes the Auto Picle - S ideally suited for large pipes. The Auto Picle - S is portable and easy to setup.

Features & Benefits

- **Motorized Oxy Fuel Pipe Cutter**
Automatically bevel cuts or straight cuts steel pipe
- **Remote Control Pendant**
Operate machine away from cutting area to avoid sparks
- **Optional Guide Rail**
Cuts up to 94 in (2400mm) diameter of pipe accurately; use for cutting pipe vertically.
- **Interlocking Chain Links**
Add or remove chain as needed to cut smaller or larger pipe
- **On/Off Driver Clutch**
Position and align machine quickly
- **High Quality Tips**
Koike's superior design Series 100 torch tips are included to ensure fast, smooth cuts
- **Optional Snap Valve**
One-touch on/off gas valve
